

Please, no dogs and no smoking at any time on show grounds.

Entries must be received prior to Monday, Oct 22, 2017 to avoid \$15 late fee. No entries accepted after October 26.

No "day of" entries accepted other than additional rounds for those that have entered by closing date.

No refunds for any reason. Rain date scheduled Sunday, November 5, 2017.

Ride times will be provided to all entrants via email not later than Friday, Oct 27, 2017. You must supply a valid email address to receive ride times.

Riders are required to wear ASTM/SEI approved helmets and cross-country vests, as well as boots or half-chaps, and appropriate riding clothes.

All riders must participate as individuals and not as part of a team.

Competitors must bring their own water, as there is limited water on the grounds.

Competitors may warm up in the designated warm up area only.

All rounds are timed and the rider closest to the optimum time with a clear round wins each division.

First rounds only are scored; repeat rounds, if elected, must be on the same horse in the same division and are not scored.

A clear round completed in the exact optimum time scores 0 points.

Each second that a rider's time deviates, whether faster or slower, from the optimum time adds a point.

Points will be added for faults as follows: - 20 points for refusal of any fence - 4 points for a rail or knockdown of any fence

Riders who spend more than double the optimum time on course may, at the discretion of the organizers or ground jury, be asked to retire.

There will be a bogey fence for each division, which the rider may choose to jump after the timed round is finished. Successful completion of the bogey fence will adjust the rider's score by 4 points (or less if within 3 points of optimum time) to come closer to optimum time.

Ribbons and prize will be awarded to first place rides. Ties stand. Duplicate ribbons will be awarded.

Ribbons and prized will be awarded to best costume "rider" and best costume "horse".

Negative Coggins required
